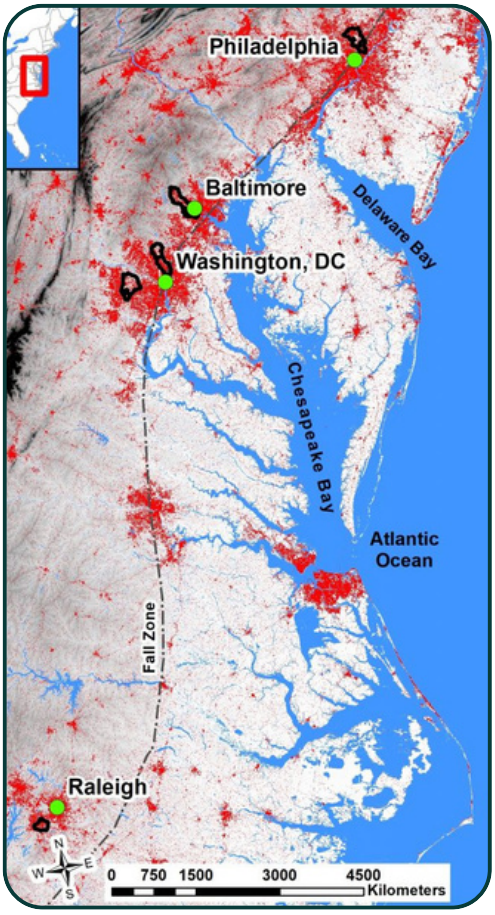
Urban Critical Zone Data Exploration Workshop

Data-based workshop for secondary science educators who are interested in exploring real, complex, urban environmental data with their students.

Participants will experience a data exploration lesson from both student and educator perspectives, then collaborate to plan how they can bring authentic data exploration into their own classrooms.



- Secondary science educators who teach in the Philadelphia, PA, Washington, DC, or Baltimore, MD areas.
- $200 stipend for participants who complete the workshop and all associated pre- and post-workshop surveys.
- Lunch and snacks will be provided.
- Parking reminbursed with receipt.
- Reimbursement for participants travelling from Philadelphia or Washington D.C.
- Additional opportunities for participation beyond the workshop.

Saturday, January 30, 2027
8:30 a.m.–4:30 p.m.

Towson University Center for STEM Excellence
Baltimore Inner Harbor
