

# Outdoor Teaching and Learning Camp

## June 22–26

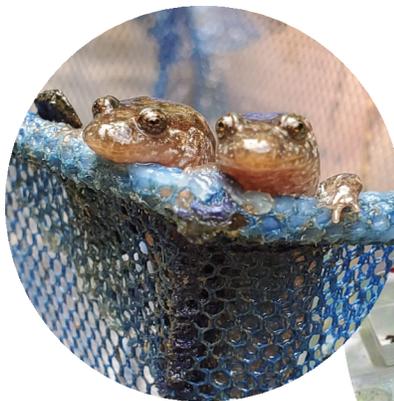

### Ready to Get Your Feet Wet in Real Science?

Join Stroud Water Research Center for a hands-on, field-based professional learning experience where educators become freshwater scientists — and leave ready to lead powerful, student-driven watershed investigations.

This 5-day educator camp blends stream science, outdoor learning, and classroom application, helping teachers transform local waterways into living laboratories.

- **When:** Monday, June 22 to Friday, June 26 from 9 a.m. to 3:30 p.m.
- **Where:** Days 1, 2, and 5: Stroud Water Research Center, Avondale, PA. Day 3: Octoraro Reservoir and Glenroy Preserve. Day 4: White Clay Creek Preserve
- **Audience:** Grades 3 to 12 classroom teachers, school administrators and curriculum designers, and nonformal educators.
- **Act 48:** Up to 38 hours.
- **Cost:** \$200, including lunch for three days.

*Registration is limited and closes on June 5.*
