

MWEE

"In Your Schoolyard" Teacher PD

Are you a Pennsylvania K-12 teacher passionate about bringing local environmental education into your classroom or schoolyard? Learn how to implement the Meaningful Watershed Educational Experience (MWEE) Framework to address the **ELS standards** while increasing student achievement! MWEEs are learner-centered experiences in which students investigate local environmental issues and complete informed action projects.

These **free** sessions will provide experience with the MWEE instructional framework, potential partnerships with environmental education (EE) providers in your region, while advancing your MWEE Certifications.

Steps	Date and Time	What	How
1	**June 9th, 2026 7:30am or 3:30pm	30-min. Mandatory Informational Webinar	**Recording
2	Independent study must be completed by 10/1	Free, asynchronous, MWEE 101 online course	Course Link
